OUR CONNECTED CAPABILITIES

Built around your next move.

Four capabilities. One partner for the bigger picture.

01 Logistics & transport

Local and transit transportation, clearing and forwarding, cargo and terminal handling. Mining logistics, heavy and oversized project cargo, truck sourcing and operational support.

02 Industrial supply

Industrial raw materials and chemicals for mining, manufacturing and agriculture. Sulphur supply and product-specific sourcing, specification and delivery coordination.

03 Import & export

Facilitation for sourcing, supplier coordination, shipment planning, documentation and cross-border movement. Industrial, commodity and petroleum product enquiries.

04 Minerals & commodities

Supply and trade facilitation for copper cathode, ETP copper, gold, silver, cobalt and coltan. Product specifications, documentation and commercial terms are confirmed for each enquiry.

To discuss a quotation, share your product or cargo details, quantity, origin, destination and preferred timing.

OUR PURPOSE

Reliable connections. Lasting value.

MISSION

To deliver reliable, efficient and integrated logistics, industrial and commodity trading solutions by connecting resources, markets and opportunities. We are committed to operational excellence, integrity, innovation and long-term partnerships that create sustainable value for our customers, partners and communities.

VISION

To become a leading and trusted African industrial and trading group, connecting global markets through innovative logistics, strategic partnerships and sustainable industrial solutions.
